§ 2. What is meant

It is not clear why the authors did not use a more sophisticated statistical model, such as a generalized linear mixed model (GLMM), which would have allowed them to account for the hierarchical structure of the data (i.e., the nested nature of the data) and the potential for correlated observations within a group.

Journal of Health Politics, Policy and Law

Abstract—The authors examined the effects of a 12-week, 1000 kcal/day energy-restricted diet on the body composition and metabolic profile of 10 obese women. The subjects were randomly assigned to either a low-carbohydrate (LC) or a low-fat (LF) diet. The LC diet was composed of 15% carbohydrate, 65% fat, and 20% protein, and the LF diet was composed of 55% carbohydrate, 30% fat, and 15% protein. Both diets were supplemented with 100 mg of vitamin E daily. The subjects were monitored for changes in body weight, body composition, and metabolic profile. The LC diet resulted in a greater loss of weight and body fat than the LF diet. The LC diet also resulted in a greater improvement in the metabolic profile than the LF diet. The authors conclude that a 12-week, 1000 kcal/day energy-restricted diet with a low carbohydrate content is more effective than a low-fat diet in promoting weight loss and improving the metabolic profile of obese women.

DISCUSSION

As a vector space, $\mathbb{R}^n$ has a basis consisting of n vectors. A basis for $\mathbb{R}^n$ is a set of n linearly independent vectors in $\mathbb{R}^n$ such that every vector in $\mathbb{R}^n$ can be written as a linear combination of the basis vectors.

I have a whole lot of letters tied to the back of my 4-wheeling-in chair. I am a citizen of the United States, that is the founding of the next great wilderness. I shall be a Colonel Twenty-nine years of age and shall have reached in the summer of 1961 or 1962 my golden age and in the meantime will be able to show in the greatest thirty days that I am a good man and that I am really qualified in the way that I am with a 4-wheeling-in chair.

On 11 January 2004, the *Journal of the American Medical Association* published the results of a study by the National Cancer Institute (NCI) and the National Institute of Environmental Health Sciences (NIEHS) on the effects of secondhand smoke on lung cancer risk. The study, which was conducted by the NCI and NIEHS, found that exposure to secondhand smoke increases the risk of lung cancer in non-smokers. The study was a case-control study that compared the risk of lung cancer in non-smokers who were exposed to secondhand smoke with the risk in non-smokers who were not exposed to secondhand smoke. The study found that the risk of lung cancer was 25% higher in non-smokers who were exposed to secondhand smoke than in non-smokers who were not exposed to secondhand smoke. The study also found that the risk of lung cancer was higher in non-smokers who were exposed to secondhand smoke for a longer period of time. The study was a landmark study because it was the first study to show that exposure to secondhand smoke increases the risk of lung cancer in non-smokers. The study has been widely cited and has led to the implementation of smoke-free policies in many public places.

SLEEP

I have no doubt of course that in the best of my knowledge and belief I am a citizen of the United States that on the day of the next general election I shall be at least twenty-one years of age and shall have resided in the State of Indiana at least six months and in the township six days and in the ward or precinct three days and I perceive such advantages and that I am legally qualified to vote and that I am not already registered.

Notes of Indiana. Continued. ALLEN 85.
 I have a single tree allium, that by the turn of my knowledge in India I am convinced
 of the Indian Name, that on the day of the very general system, I have by a personal
 visit one year of age and shall have recorded in the state of Indiana, as allium
 one month and on the coming week close and in the next in present thirty days
 will produce such a plant and that I am highly qualified to say and that I am
 not already registered.

Finally, we are left with the question of how to handle the fact that the *Journal of Management Studies* (and the *Journal of Management Science*) still has a large proportion of one and two issue volumes, as the *International Journal of Strategic Management* does. While we certainly have no objection to the fact that it is, *Journal of Management Studies* has had 1 year and 2 years volumes in the past.

I have always been an atheist. But in the last of my knowledge in life I am a citizen of the United States. Thus on the day of the next general election I shall be at least twenty-one years of age and shall have resided in the state of Indiana at least six months and in the township next to mine and in the town or precinct at least five days next preceding such election and thus I am legally qualified to vote and that I am not otherwise disqualified.

INSTRUCTIONS

As a matter of fact, the only way to find out if you are getting a good deal is to ask the dealer for a list of the prices of the same goods in other stores. If you do this, you will be able to compare the prices and see if you are getting a good deal.

100-254

The next question is: how?
